

## Objective

---

- I'm passionate about working on different software projects in an environment where I can develop my technical and non-technical skills.

## Experience

---

- 20480 Programming in HTML5 with JavaScript and CSS in New Horizons
- 20483 Programming in C# in New Horizons
- 20486 Developing ASP.NET MVC Web Applications in New Horizons
- 10774 Querying Microsoft SQL Server 2012 in New Horizons
- 10265A Developing Data Access Solutions in New Horizons
- 10776 Developing Microsoft SQL Server 2012 Databases in New Horizons

## Graduation Project

---

- Title : Shelves organization
- Grade : Very Good
- Description : The primary goal of software of work to analyze the current Database for a supermarket to be able to sort and arrange the products more effectively on the shelf to increase sales and profits and make the customer to buy whatever he needs in a short time

## Projects

---

- Personal Blog : site for personal entries where the user can post new blog entries and can also use deletion and modification are those statements on the record Database has also been set up to private control panel is added to the site sections, users and give them different powers and it create by use : Html , Css , Javascript , JQuery , MVC 4 , SQL Server
- Downlaod Books " Part of the team " : A specialized site to download novels and books format PDF, where you can download the book directly and you can also through the website read books, and the site contains sections and authors and is characterized by every book some of its details, where the site contains a panel of its own control, you can create, modify and delete books In addition, authors and edited them and it create by use : Html , Css , Javascript , JQuery , PHP , PDO

You can view the site from here : [www.4read.net](http://www.4read.net)

## Education

---

- **Computer Science** **2012- 2016**
- **Selected undergraduate courses: Operating Systems, Databases, Software Engineering, Discrete Mathematics, Data Structures and Algorithms, Web Engineering .**
- **GPA : 2.7/4.0**

## Skills

---

- **C# , MVC , SQL Server , HTML , CSS , JavaScript , JQuery , PHP**
- **Visual Studio , Microsoft SQL Server**
- **basic knowledge in photoshope**

## Languages

---

- **Arabic : Very Good**
- **English : Good**
